ANNEXURE- II**MANAGEMENT DISCUSSION ANALYSIS REPORT****TEXTILE INDUSTRY OVERVIEW:**

India is the one of the world's largest producers of textiles and garments. Abundant availability of raw materials such as cotton, wool, silk and jute as well as skilled workforce have made the country a sourcing hub. It is the world's second largest producer of textiles and garments. The Indian textiles industry accounts for about 24 per cent of the world's spindle capacity and 8 per cent of global rotor capacity. The potential size of the Indian textiles and apparel industry is expected to reach US\$ 223 billion by 2021, according to a report.

The textiles industry has made a major contribution to the national economy in terms of direct and indirect employment generation and net foreign exchange earnings. The sector contributes about 14 per cent to industrial production, 4 per cent to the gross domestic product (GDP), and 27 per cent to the country's foreign exchange inflows. It provides direct employment to over 45 million people. The textiles sector is the second largest provider of employment after agriculture. Thus, the growth and all round development of this industry has a direct bearing on the improvement of the India's economy.

CHALLENGES FACED BY THE TEXTILE INDUSTRY:

Indians have well understood the importance of staying one step ahead of developments in the world economic environment. The industry is now preparing itself to take share of opportunities expected to arise out of the market freed from quota restrictions and other trade barriers. Industry operators are increasingly moving towards modernization and expansion as encouraged by the so-designated Textile Upgradation Fund Scheme implemented by Government.

The local textile sector is now at a critical stage where it should prepare itself to rise and grab the opportunities that are available through liberalization of the international market. Manufacturers however, were caught in inadvertence as new players started to creep on the market at a time when most operators had attention on imminent opportunities coming from a quota-free market. Strategies and policies were mainly targeted towards expansion and modernization leaving more space to domestic players. Now it obviously appear that the latter have had ample freedom to strengthen them and they are now more prepared than export oriented companies

INDUSTRY OUTLOOK:

India Ratings & Research (Ind-Ra) has revised the outlook on the cotton sector to stable for FY15 from negative to stable, driven by improving revenue prospects from a rebounding economic growth in key export destinations, stabilising input costs and continuing favourable policies. Fitch Ratings Ltd estimates the US to report a GDP growth rate of 2.6% in 2014 (2013: 1.6%) with eurozone of 0.9% (negative 0.4%) and the UK of 2.2% (1.4%). The agency has maintained a Stable Outlook on its rated textile companies on the back of growing revenue and stable margins and thus improving leverage and cash flow from operations. With 67% of the textile companies rated 'IND BB+' and below, the Stable Outlook reflects that credit risks have already been largely factored in the existing ratings.

OPPORTUNITIES & THREATS

The Country's domestic market offers much potential for growth and numerous business opportunities as demand for Textile Products are expected to keep pace with increased purchasing power augering well for the Industry. Allowing FDI in retail will also help in expansion of this channel.

The key threat to business continues from low cost of imports from China as well as aggressive pricing by newer entrants in the market. With Large Format Stores becoming key shopping destinations and growth drivers, the balance is also tilting against manufacturers, which could erode the margins. Cotton prices which have been highly volatile are of major concern for textile manufacturers along with ever increasing energy prices.

COMPANY OUTLOOK:

Though the company has achieved higher amount of net profit when compared to the last financial year. The board of directors of the company feels that textile sector is fast growing in India, hence due to increasing scope and demand for exports in India, the company at the same parallel will put all the efforts to improve the quality and productive to get more order at competitive rates and try to maintain high quality and productivity in the manufactured goods. Barring unforeseen circumstances the company is confident of achieving better results in the current year

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company has proper and adequate systems of internal controls in order to ensure that all assets are safeguarded against loss from unauthorized use or disposition and that all transactions are

authorized recorded and reported correctly.

The Board of Directors has been entrusted with the responsibility of reviewing the findings and to investigate and take necessary actions wherever required.

HUMAN RESOURCES/ INDUSTRIAL RELATIONS:

The Company firmly believes that motivated and empowered employees are the cornerstone of competitive advantage. The Company's employee value proposition is based on a strong focus on employee development, providing a satisfying work environment, performance appraisal and counseling and appropriate empowerment.

The Company continues to maintain and enjoy a cordial relationship with its employees, providing positive environment to improve efficiency with regular investments in upgrading the knowledge and skills of the employees.
